TuffCut® GP

Workhorse End Mill

Series 116/169

Reliable, Profitable and Efficient

M. A. Ford's TuffCut® GP Workhorse mill excels without sophisticated balancing equipment or shrink fit holders to work and generate profits on all milling machines.

- Produce long cuts at reasonable speeds on everyday equipment.
- Exceptional tool life at moderate speeds and feeds.
- Performs well in all materials including, Stainless Steel, Inconel and Stellite.
- Ideal for long cuts requiring accuracy and minimal tool wear deflection.
- Proven for use in unmanned machining operations.
- .01, .02 and .03 corner radii offered standard for maximum tool life.
- 30 degree helix for maximum strength.
- TiCN coated.
- Available in both stub and standard length.
- Also recommended for more aggressive machining on today's CNC machine tools.
- Special sizes available on requests.

Reliable

Profitable

Efficient
